

# Fred Midgley Bower's Band

*Gavin Holman, 23 January 2024*

*F. Midgley Bower's Band at Towers Hall, Bradford, 1909.*

On receiving this photographic postcard, I originally thought this band was associated with the firm of Midgley Bowers & Co., machine makers, of Lady Royd Works, Allerton Road, Bradford. However, these went bankrupt in 1879, and the postcard is clearly one from the late 1890s or early 1900s at least. Midgley re-opened the machine works at Lady Royd, which was fully operational in 1886, and went on to form a new partnership with John Beanland, which continued at least until the mid-1890s. The company produced special machinery for preparing and combing wool.

A closer look into Towers Hall, discovered it was originally a meeting place of the local Temperance movement, particularly notable for the preachings of Rev. A.C. Perriman in the 1890s. The site was converted to a roller-skating rink in 1909, the main building being 84 by 38 yards. Three other rinks were built at the same time in the city - the Coliseum Rink, the American (Rolarena), and the Hippodrome Rink. At its opening, in April 1909, it was noted that a military band would be in attendance. An advertisement for the Coliseum Rink in 1910 mentions the F.M. Bower's Military Band being part of the attraction.

One of the features of these early roller-skating rinks, was the provision of musical entertainment for the skaters and visitors. Some rinks had their own 'house' bands, others engaged local bands and musicians on an ad hoc basis. F. Midgley Bower's Band clearly were engaged at the Towers Hall rink in 1909 or 1910, and again at the Coliseum.

*Advertisement, Bradford Observer, 10 February 1910*

However, the skating novelty quickly faded and the demand for cinemas increased so the huge rink was split into two sections and the front part nearest Manchester Road was converted into a picture hall. It was taken over by Hibbert's Pictures and converted into the Towers Hall Cinema, which opened on 25<sup>th</sup> September 1911 with Alma Taylor in "*Fight with Fire*" plus a supporting programme of movies.

*Towers Hall Picture House*

The Towers Hall Picture House, in 1913, had its own in-house orchestra which was led by Fred Bower.

Fred was born on 22 November 1877 at Great Horton, Bradford. His father was Milton Bower, a woollen warehouseman, living at 90 Alexander Street, Great Horton, with his wife Charlotte (née Midgley). In 1891 the family was living at 153 Woodroyd Road, Bowling, and Fred was employed as a stuff warehouse boy. Fred married Rose Illingworth in 1899 and by 1901 they were living at 61 Heywood Street, Great Horton, employed as a stuff warehouseman, with Rose as a school mistress.

In 1911 Fred was recorded as being a job dealer in textile fabrics, and lived with Rose, her mother and her two sisters, at 41 Little Horton Green, Bradford. Fred later went into business with Victor Bottomley, setting up the Hollinwood Motor Company, to sell and service automobiles, at Listerhills Road, Bradford. He died in 1942.

Sadly, nothing more is yet known about Fred's musical accomplishments, clearly a part-time amateur role, nor about the other members of his band, shown in the photograph.
